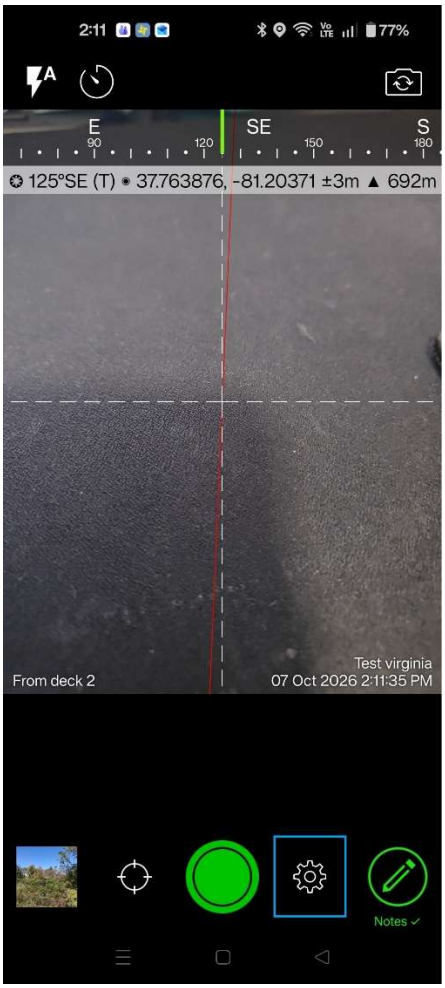
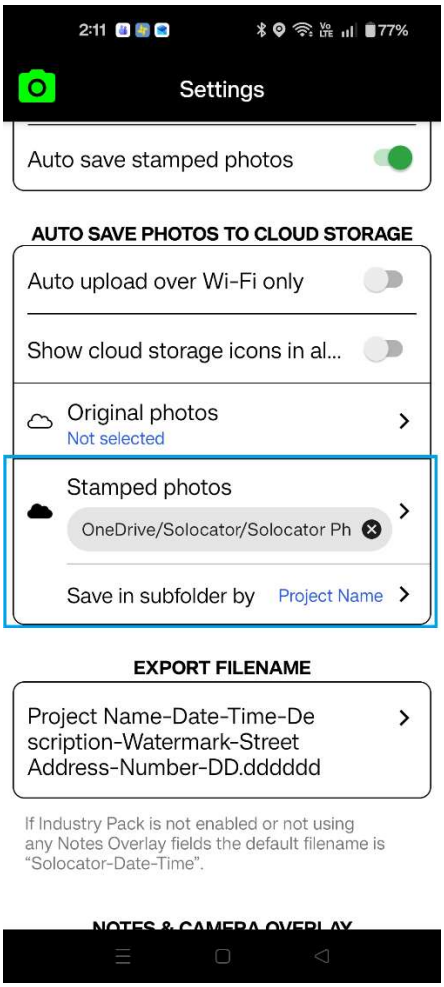
Solocator - Cloud Save Setup

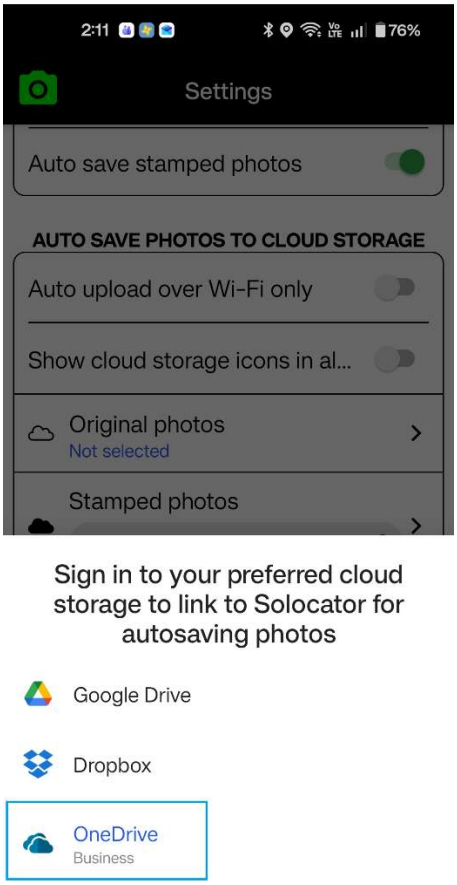
Open the Solocator App – and hit the settings Cog:



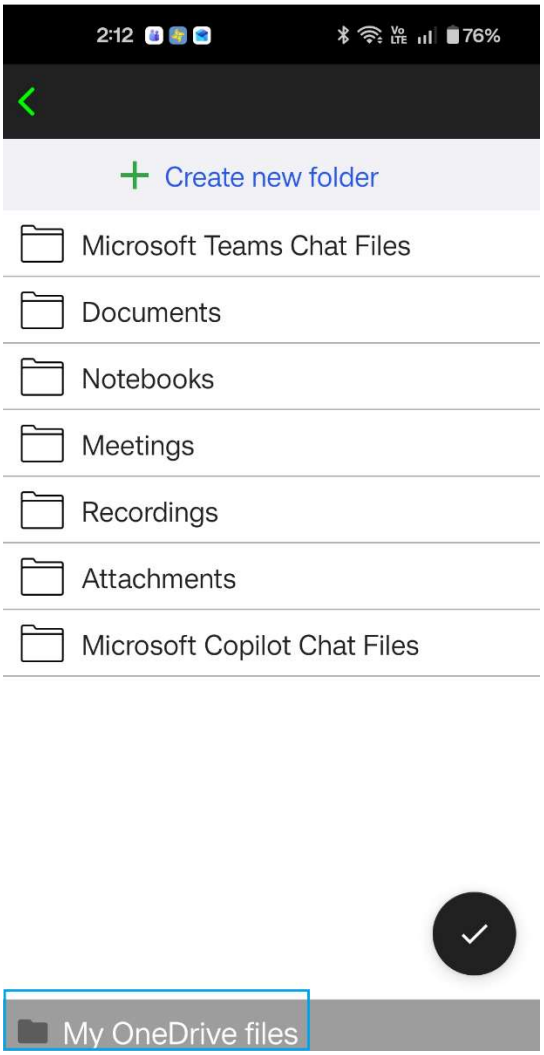
Scroll down to the ‘Cloud Storage’ section – and choose the ‘Stamped photos’ option



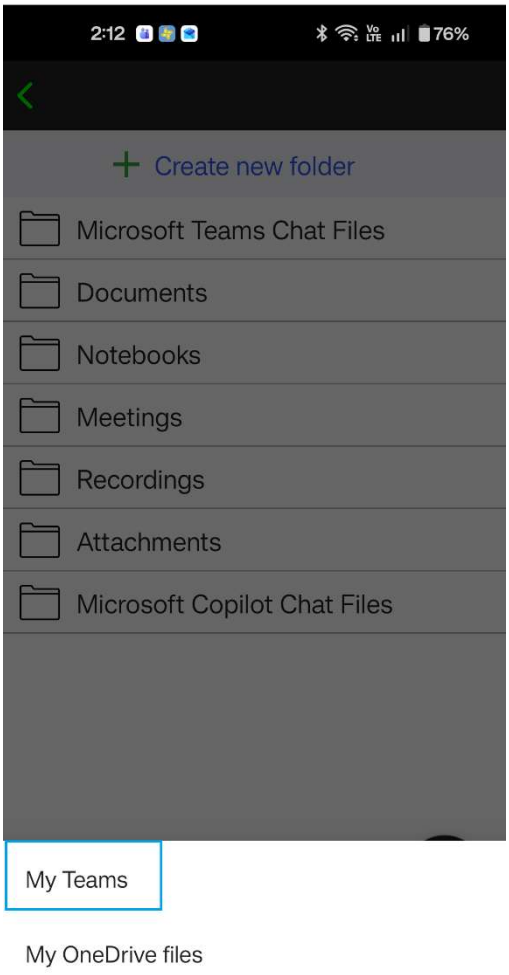
Tap on the ‘OneDrive’ option – and choose ‘Business’



It will ask you to login to your Microsoft account – then show your Onedrive files – Tap on that gray bar at the bottom – and choose the ‘Teams’ option

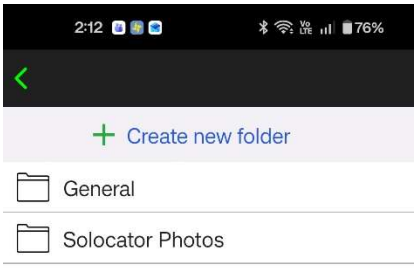


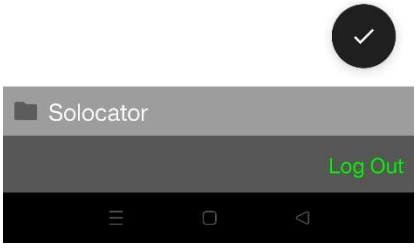
Tap the ‘My Teams’ option



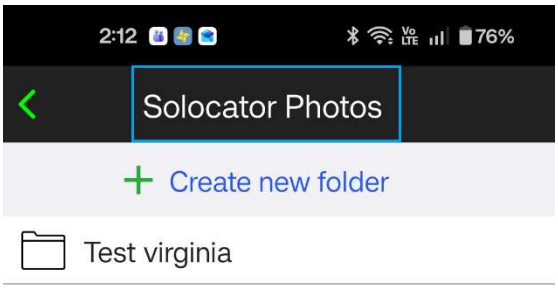
It should load a list of all team that you are a member of – you should be on the “Solocator” team – if not, reach out to Alex.bittinger@broadbandltd.net to be added.

Once you select ‘Solocator’ and hit the checkmark – it will show you these folders. Choose **“Solocator Photos”**

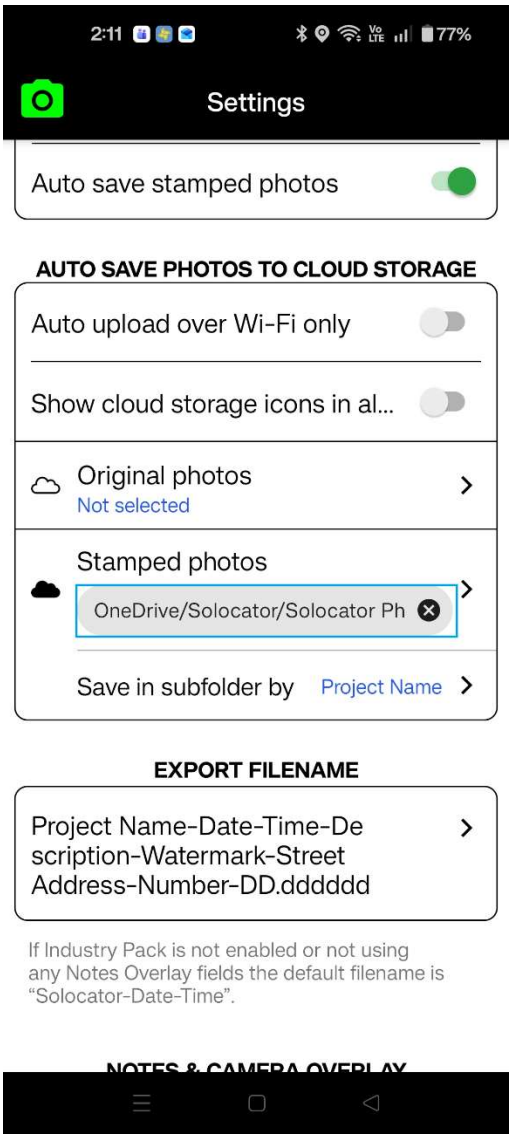




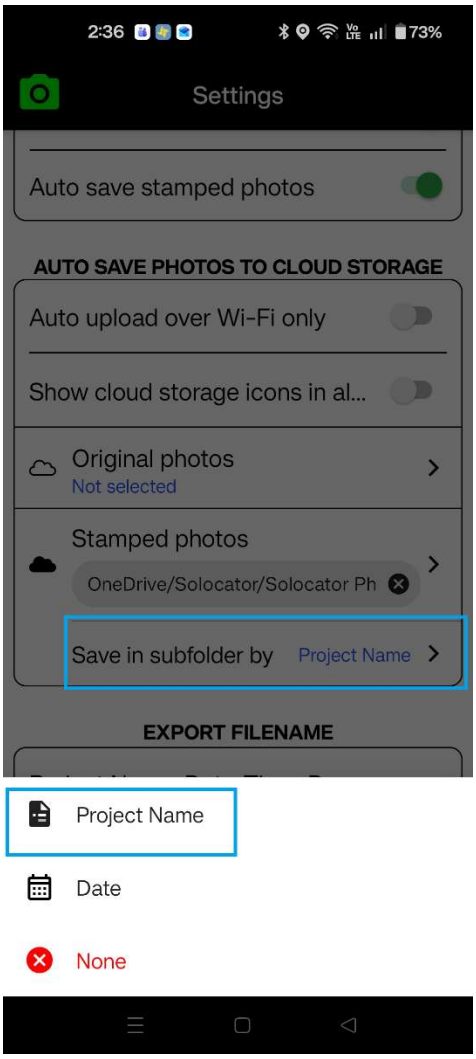
You should show the ‘Solocator Photos’ at the top – then hit the checkmark



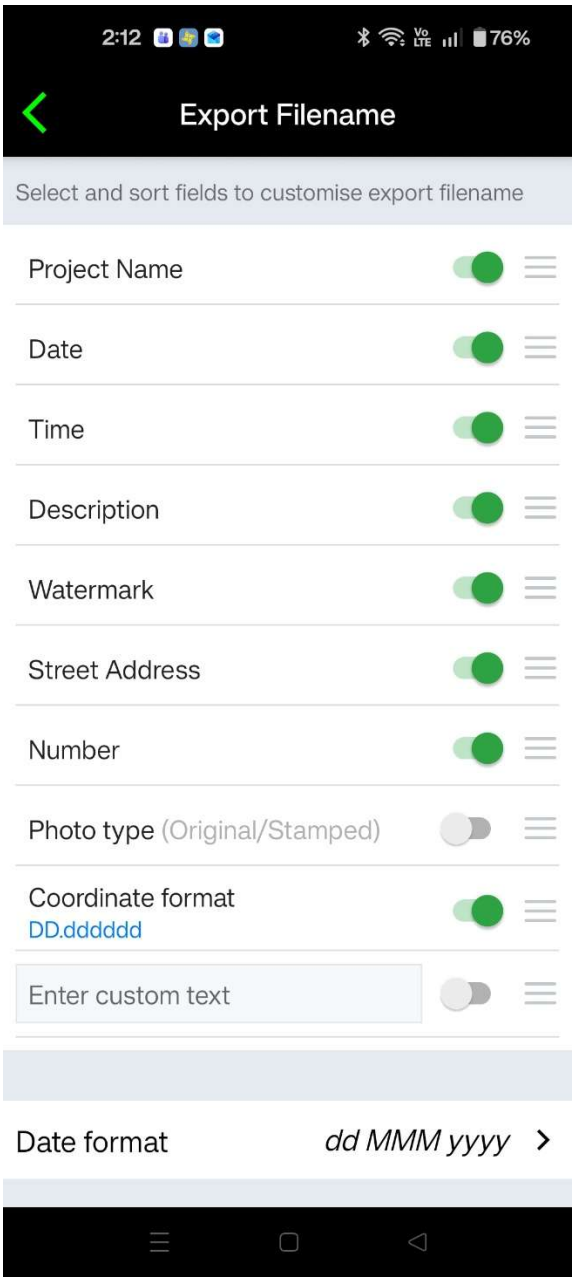
The settings screen should show your save folder –



Beneath that – we have the ‘Save in subfolder by’ – ‘Project Name’



Finally – Set the filename to include these details:



Please use the EXACT project name that you use on your timecard – this will ensure that everyone's photos reach the same folder.

EX: "Hyak-P000074"
